I. Introduction

The Regional Transportation Commission of Southern Nevada (“RTC”) permits First Amendment activities at facilities owned or controlled by the RTC to the extent that those activities are not incompatible with the RTC’s overall vision and goals, or impedes the RTC’s ability to safely operate the regional transit system, and to do so with optimum service to the public.

II. Purpose

The purpose of this document is to provide support to the RTC’s Vision of a Safe, Convenient and Effective Regional Transportation System that Enhances Mobility and Air Quality for Citizens and Visitors.

The primary purpose of the RTC is to facilitate public transit. The RTC’s terminals and parking areas and the sidewalks adjacent to the terminals and parking areas are not public fora. Some First Amendment activities must, by law, be accommodated to at least some extent at the RTC’s facilities, which include, but are not limited to, any installation or facility owned, operated or leased by the RTC. It is the declared intent of the RTC to not allow the RTC’s terminals to become a public forum for dissemination, debate or discussion of political, social or religious issues, as far as permitted by law. Permission by the RTC or an authorized agent thereof, expressly or by implication, to enter upon or use the RTC’s facilities or any part thereof, for non-commercial purposes or to conduct First Amendment Rights activities shall be conditioned upon compliance with the RTC’s Safety and Security Policies and Procedures, as set forth herein.

No expressive or First Amendment activities may be conducted at RTC facilities unless permission has been obtained from the General Manager or designee.

The purpose of this process is to ensure that the compelling governmental interests of the RTC are considered.

These interests include, but are not necessarily limited to:

- protecting the physical safety of the public, its passengers, its employees, its contractors and other persons authorized to be present at RTC facilities;
- ensuring that its passengers’ needs to safely and efficiently utilize its transportation system are met;

- preventing obstructions to passengers' and employees' line of view of signage, vehicles, and in preserving unobstructed access by passengers and employees to transit amenities, employees, security, etc.;
- preserving unobstructed, unimpeded and orderly flow of pedestrian traffic throughout its facilities, particularly in and around bus bays, crosswalks, exits and entrances, doorways, ramps, sidewalks, restrooms, etc.;
- minimizing annoyance, invasion of rights, or perceived risk to personal security of its passengers, both in its transit centers and park and rides, where passengers represent a captive audience, and are unable to avoid unwanted communication or contact with strangers without forfeiting their fare or their position in line;
- Preventing undue apprehension by its passengers of the risk of theft or assault in areas where passengers are engaged in cash or credit transactions, including ATM machines, ticket vending machines, customer service windows, and in other areas such as bus bays, etc.;
- Complying with applicable building codes, fire codes, noise and air quality environmental standards, and other laws and regulations;
- Eliminating and/or minimizing liability to itself and others resulting from the activities of others at RTC facilities;
- Maintaining clean facilities and bus bays/platforms and shelters free of litter, trash, and debris; and
- Implementing rules which entail minimum public cost of enforcement and control.
