

# Flamingo Corridor Improvements

U.S. Department of Transportation  
Federal Transit Administration

## FACT SHEET

THIS PROJECT FUNDED BY FUEL REVENUE INDEXING, NDOT, FTA & TIGER GRANTS  
[RTCSNV.COM/FRI](http://RTCSNV.COM/FRI)

**FLAMINGO ROAD** is a major east-to-west arterial street that connects extensive existing and planned commercial and residential development directly to the heart of the Resort Corridor and the University of Nevada, Las Vegas (UNLV) campus. The combination of large residential populations at the ends of Flamingo Road and concentrated employment at the center generates substantial commuter traffic on Flamingo Road. The existing transit line on the corridor has more than 12,000 passenger boardings daily, making it the most used residential route in the RTC's transit system. In addition, Flamingo Road includes connections to all major north-south transportation and transit corridors for the 2 million residents of the Las Vegas valley.

### TRANSIT ROUTE COMPONENTS

- 14-mile transit corridor improvements from Grand Canyon Drive to Jimmy Durante Boulevard
- Connection to 15 transit routes, including 11 residential, 3 express routes (Strip & Downtown Express, Centennial Express, Boulder Highway Express) and the Deuce on the Strip
- Dedicated bus/bike lanes
- Bus will operate in regular traffic lanes from Grand Canyon Drive to Rainbow Boulevard, from Arville Street to Koval Lane and from Boulder Highway to Jimmy Durante Boulevard

### CONSTRUCTION ELEMENTS

- Resurface and restripe approximately 7 miles of Flamingo Road
- Installation of more than 100 new transit shelters
- Intersection and traffic signal upgrades
- Installation of Intelligent Transportation Systems (ITS) technologies to improve traffic flow
- Medians will include non-irrigated decorative landscaping
- Left turns will be restricted from driveways and un-signalized cross streets
- Improved pedestrian crosswalks

### PROJECT SCHEDULE

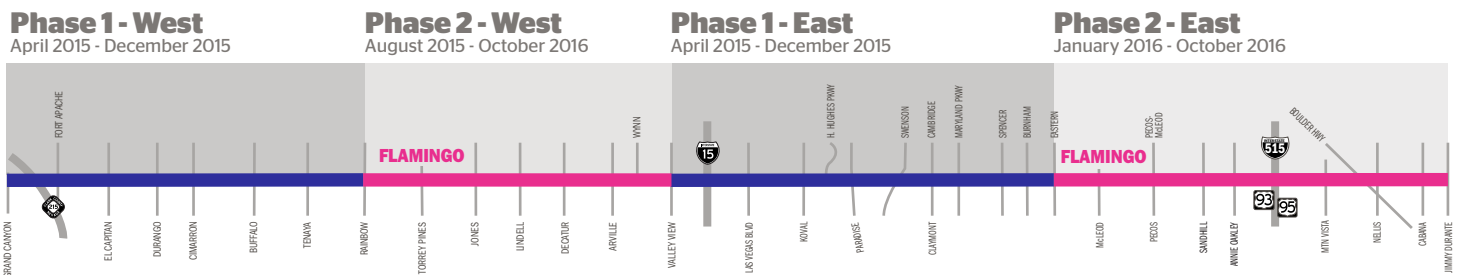

- Design: July 2013 - March 2015
- Pre-Construction: June 2014 - March 2015  
(including utility coordination, finalization of design, securing permits from NDOT & Clark County)
- Construction: March 2015 - October 2016

### FUNDING BREAKDOWN

- \$44.6 Million Construction Cost
  - Funded by the RTC, FRI, CCWRD, NDOT, FTA and TIGER funds
